

Training & Placement Cell

College of Dairy Technology, Udgir Dist.-Latur

About Us

The Training & Placement Cell (TPC) at the College of Dairy Technology, Udgir acts as a vital link between academia and industry. The Cell facilitates professional development, industry exposure, and placement opportunities for students, ensuring they are industry-ready and equipped with the required skills to excel in their careers.

Objectives

- Facilitate internship and placement opportunities for students in reputed organizations.
- Organize industrial visits, guest lectures, workshops, and seminars by industry experts.
- Conduct soft skills development and pre-placement training.
- Build and maintain a strong network of industry contacts.
- Support students for higher education and entrepreneurship.

Key Functions

- Coordination with industries and organizations for campus recruitment drives.
- Arranging 6-month in-plant training (Semester VII) for B.Tech (DT) students.
- Assisting students in summer internships.
- Maintaining an updated database of potential recruiters and alumni.

Placement Highlights

- Regular recruitment by leading dairy cooperatives, private dairy companies, food industries, consultancy firms, and quality assurance organizations.
- Students have been successfully placed in reputed organizations like:
